

Komori Open House 2009

PrintVis participated in Komori's 2009 Open House in Utrecht Holland this year, via Rainbow Solutions.

Rainbow Solutions had a stand there, as well as an hourly show, presenting seamless integration to Kodak using JDF.

More than 400 people participated during the 2 days, and many of them were presented to PrintVis – either through the JDF show,

or via the stand.

Thanks to Rainbow Solutions, and to CTM for making this a great show.
