

Press release

**DP Technology inc., Singapore elected as PrintVis partner of the year 2008**

*More than 15 PrintVis resellers from several European and Asian countries have been gathered, at the annual PrintVis partner meeting, which this year was held in Milano, Italy.*

"This year's partner meeting has had 2 major themes: Improving and streamlining the collaboration in the PrintVis partner community and delivering important training sessions in the new features in PrintVis 5.01 to our partners", says PrintVis' Channel Manager, Lars Strøm Valsted, and continues "PrintVis 5.01 is now JDF Certified, and in addition the product have had important features added in Web2Print, JMF messaging, impositioning handling and in the planning area, and our normal web training is not really suited to this kind of complex training sessions, so we took a day in the partner meeting, to deliver this important knowledge to our partners."

On the partner meeting, PrintVis also nominated the PrintVis Partner of the Year, an award given to a partner who has shown great commitment and enthusiasm regarding PrintVis.

In 2008 the PrintVis Partner of the year award went to the first PrintVis partner in South East Asia, DP Technology inc. in Singapore. DP Technology covers several countries in South East Asia on an exclusive basis, among them Singapore, Malaysia, Indonesia and Thailand.

"Chew and his team at DP Technology have really proven, that commitment and dedication can bring you a long way in a short period of time. DP Technology have managed to sell more PrintVis licenses in their first year as a partner, than any other partner has done before. In addition, they have managed to build up a lot of knowledge about the printing industry, and they have succeeded in establishing PrintVis as a "must see product" in the minds of the important printing companies in South East Asia" says Lars Strøm Valsted.

"Our team is very happy to be elected as PrintVis partner of the year 2008. This is also recognition of the suitability and acceptance of PrintVis in the Asian market. This recognition further motivates my staff and I to bring PrintVis to more printing companies in Asia" says Chew Kim Poh, Managing Director of Dp Technology
